SYMBIOSIS
INSTITUTE OF TECHNOLOGY, HYDERABAD

WELCOME

Symbiosis Institute of Technology (SIT), Hyderabad stands as a beacon of academic excellence, innovation, and transformative education in the heart of India's emerging technological corridor. Established in 2021, SIT Hyderabad reflects the visionary legacy of Dr. S. B. Mujumdar, Chancellor of Symbiosis International (Deemed University), and is founded on the timeless Indian ethos of "Vasudhaiva Kutumbakam"—the world is one family.

As a proud constituent of Symbiosis International (Deemed University), Pune, the institute is strategically located in Hyderabad, a city known for its robust educational ecosystem and global connectivity. SIT Hyderabad offers state-of-the-art infrastructure, a progressive curriculum, and a culture of research and innovation that prepares students to become not just skilled professionals, but responsible global citizens and future leaders of a self-reliant India.

With a commitment to nation-building through education, SIT Hyderabad is empowering the next generation of engineers and entrepreneurs to contribute meaningfully to the vision of a New India.

About Us.

Symbiosis Institute of Technology (SIT), Hyderabad, established in 2024, is a leading engineering institution committed to fostering innovation, excellence, and holistic education. As a proud constituent of Symbiosis International University, Pune, Hyderabad, SIT is strategically located in Telangana's thriving educational hub. We operate on the foundational philosophy of 'Vasudhaiva Kutumbakam'—'The World is one family'—and are dedicated to nurturing aspiring engineers to thrive in a competitive and dynamic global environment. We eagerly anticipate your visit and the cultivation of a successful and enduring partnership.

VISION

Transforming lives through excellence in engineering education, cutting-edge research, and innovation,empowering individuals with the skills and knowledge to shape a better, sustainable future.

MISSION

- Design skill based Curriculum: Develop a dynamic, career-focused curriculum that equips students with essential problem-solving skills, preparing them for both immediate employment and advanced studies.
- Integrate Research with Learning: Educate students on best practices in Computer Science by incorporating the latest research advancements, fostering a deep understanding of emerging technologies.
- Advance Knowledge and Innovation: Drive knowledge creation and dissemination in engineering, promoting research and innovation to solve real-world challenges and benefit society.
- Strengthen Strategic Collaborations: Build robust partnerships with industry, academic institutions, and international entities to create synergies that enrich learning and research opportunities.
- Enhance Employability and Ethics: Cultivate professional ethics and foster experiential learning to prepare students for successful, responsible careers.
- Instill Ethical Leadership and Professionalism: Develop ethical values, leadership skills, and professionalism in students, empowering them to contribute positively to community and societal advancement.

COURSES OFFERED

- B.Tech in Computer Science and Engineering (CSE)
- B.Tech in Computer Science and Technology (CST)
- B.Tech in Computer Engineering (CE)
- B.Tech in Artificial Intelligence & Machine Learning (AIML)
- B.Tech in Computer Science and Engineering (CSE) – Honors
- B.Tech in Computer Science and Engineering (CSE) – (AIML)

Industry-led Flexi courses

Global Immersion

Project-based Learning

The Symbiosis Advantage

- 01**
Quality education in line with the requirements of today's competitive industry and rapid development in technology.
- 02**
Provides an environment conducive for harnessing the potential of faculty and students through systematic & practical learning both within and outside the classrooms.
- 03**
Highly qualified and experienced faculty & their continual professional growth through attending conferences & publishing research articles.
- 04**
Employing innovative methods of teaching & providing ample opportunities for learning outside the classroom through projects, technical fests, & cultural programmes.
- 05**
Regular revision of curriculum in line with the fast-changing need of the industry.

T&P CELL POLICIES

Mission of the T&P Cell

To empower students into becoming industry-ready professionals through a dynamic, inclusive, and future-forward talent transformation ecosystem, aligned with the ethos of excellence, innovation, and holistic development at Symbiosis Institute of Technology, Hyderabad.

Objectives

- To organize campus recruitment drives for B.Tech students by inviting reputed companies from across India and abroad.
- To prepare students for placements through aptitude and coding assessments, group discussions, and interview skills training by professional experts.
- To enhance students' personality development and communication skills through structured workshops and training modules.
- To provide career counselling and guidance by conducting sessions with senior professionals from industry and academia.
- To build and sustain regular engagement with the industry through seminars, guest lectures, conferences, industrial visits, live projects, and academic collaborations.

Goals

- To nurture agile and adaptive talent through structured training programs that foster technical competencies, professional aptitude, and personal excellence, in alignment with the evolving needs of global industries.
- To facilitate meaningful and fulfilling career pathways for students, including placements in leading organizations, support for entrepreneurial ventures, and encouragement for higher education and research.
- To bridge the academia-industry gap by integrating domain-specific skill development, real-world exposure, and industry collaborations, thereby equipping students to confidently navigate recruitment processes and professional environments.

Placement Policy – Key Highlights

Placement Policy Highlights

- A student may apply to any number of IT/Core companies. However, after receiving two job offers, they will be excluded from further placement processes.
- A Dream Offer is defined as compensation of INR 10 LPA or above. A student is eligible for only one Dream Offer.
- Eligibility to participate in placement drives is based on:
 - Maintaining a minimum academic score of 60% throughout (10th, 12th, graduation, and each semester).
 - Meeting additional eligibility criteria specified by individual companies.
- All communication between companies and students must be routed through the Training & Placement Cell.
- Students opting out of the final placement process for personal or higher education-related reasons must formally notify the T&P Cell.
- The role of the T&P Cell is to act as a facilitator and counsellor—not as a job guarantor.

Guidelines for Participation in the Placement Process

Placement Disclaimer

- The Institute facilitates opportunities for placements but does not guarantee them.
- Final selection rests with the recruiting company, based on merit and performance.
- Placement is a privilege, not a right.

Eligibility Criteria

- Minimum 60% academic score across all educational stages unless otherwise specified.
- Students must maintain regular attendance and discipline; defaulters may be debarred.

Placement Norms & Opportunities

Recruitment Participation Norms

- Students may withdraw after a Pre-Placement Talk (PPT), even after confirming attendance.
- However, if a student participates in subsequent selection rounds and is offered a role, they will be ineligible for future drives, except under “Dream Offer” conditions.

Job Offer Policy

- A student is allowed up to two offers. Post that, they will exit the placement process.
- “Dream Offers” are allowed as a one-time opportunity and do not impact the regular offer count if availed first.
- In “Day 1” or multi-company Dream Scenarios, students may appear for multiple companies but can accept only one final offer.

Key Initiatives and Services

Career Readiness Programs:

- Training in communication, group discussions, coding, interviews, resume development, and exposure to industry trends.

Industry Integration:

- Strong engagement through guest talks, corporate mentorship, seminars, and industrial visits.

Internships & Project-Based Learning:

- Students are offered live projects, internships, and on-the-job training to bridge academic learning with real-world skills.

State-of-the-Art Infrastructure:

- Includes fully equipped seminar halls, interview rooms, group discussion spaces, and digital infrastructure (Wi-Fi, projectors, systems).

Holistic Development:

- Students are encouraged to engage in student organizations, innovation activities, and social initiatives to promote overall well-being.

Career Guidance	Industry Readiness	Corporate Engagement	Operational Support
Student Orientation & Exploration	Professional Communication Skills	Industry Exposure Visits by Placement Team	Corporate Liaison & Follow-ups
Skills & Competency Profiling	Technical Mastery Workshops	Leadership Guest Lectures & Dialogues	Student& Record Management
Opportunity Awareness (Local & Global)	Workplace English & Business Writing	Professional Development Events	Workflow Coordination
Personalized Mentorship Sessions	Sector-Focused Knowledge Sharing	Strategic Academic-Industry Collaborations	Guest & Partner Engagement Logistic
Goal-Driven Career Mapping	Innovation Hubs & Startup Cells	Industry Partnership & Sponsorships	Infrastructure Oversight & Support

Our Commitment

- The Training & Placement Cell remains committed to fostering a culture of professionalism, continuous learning, and industry collaboration. We work in close partnership with academic departments, alumni, and employers to ensure that students are well prepared to embark on impactful and rewarding career journeys.

Dr. S. B. Mujumdar
Founder and President, Symbiosis University

India is on the brink of immense opportunity in the era of globalization, but to fully harness its potential, we must align with global standards in technical education and innovation. In a developing nation like ours, technology is not just a tool for advancement—it is a catalyst for transformation. However, true progress requires more than just technical knowledge. We need professionals who possess a strong foundation in engineering along with essential soft skills, leadership qualities, and an understanding of liberal arts, management, and life skills. This well-rounded approach enables individuals to think critically, act ethically, and adapt confidently in an ever-changing world. Symbiosis International University (SIU), a premier educational institution in India, recognized this vision and has taken significant strides to nurture future-ready professionals. SIU is not just about academic excellence; it is about developing “Gentlemen Engineers” and well-rounded individuals who excel in both competence and character. Students at SIU undergo a transformative journey where they are exposed to academic rigor, innovation, social responsibility, and personal growth. The University offers a vibrant campus equipped with modern labs, learning resources, wellness facilities, and a dedicated faculty that mentors students at every step. Learning here goes beyond textbooks—it focuses on holistic development and preparing students for real-world challenges.

Dr. Vidya Yeravdekar
Pro Chancellor and Principal Director, Symbiosis

Dr. Vidya Yeravdekar is the Principal Director of the Symbiosis Society and the Pro Chancellor of Symbiosis International University (SIU). Under her visionary leadership, SIU has grown into a renowned multi-disciplinary and multicultural university with over 45,000 students from all Indian states and 85 countries worldwide. The University offers a dynamic and inclusive academic environment, promoting global understanding through education. Beyond higher education, the Symbiosis Society encompasses a wide range of institutions, including K12 schools and the Symbiosis College of Arts and Commerce, furthering its commitment to holistic education. Additionally, the Society preserves cultural heritage through its museums—namely the Afro Asian Cultural Museum and the Dr. Babasaheb Ambedkar Museum & Memorial. These initiatives reflect the Society's dedication not only to academic excellence but also to cultural awareness and social responsibility. Dr. Yeravdekar's leadership continues to shape Symbiosis into a truly global center for learning and innovation.

Dr. Ramakrishnan Raman
Vice Chancellor, Symbiosis

Dr. Ramakrishnan Raman is an accomplished academician and visionary leader, currently serving as the Vice Chancellor of Symbiosis International (Deemed University). With over two decades of experience across corporate, academic, and research domains, he brings a unique blend of industry insight and academic excellence to the institution.

Dr. Raman holds a Bachelor's degree in Computer Science and Engineering, an MBA in Systems and Marketing, and a Ph.D. in Management from Savitribai Phule Pune University. His multidisciplinary educational background has played a vital role in shaping his progressive approach to higher education.

Before assuming the role of Vice Chancellor, he held several leadership positions within the Symbiosis ecosystem, including Director of SIBM Pune. Known for his student-centric vision and focus on academic innovation, he has consistently worked towards integrating technology, global perspectives, and industry alignment into higher education.

Under his leadership, SIU continues to strengthen its global footprint, foster research excellence, and prepare students to become socially responsible leaders in a rapidly evolving world.

Prof. Rajanikanth Aluvalu
Director
Symbiosis Institute of Technology, Hyderabad

It is a great pleasure and honour to serve as the Director of Symbiosis Institute of Technology (SIT), Hyderabad. I warmly welcome all students, faculty, and stakeholders to be part of our growing academic community. Established in on by serving as a vital interface between our students and the professional world.

In a rapidly transforming global economy, the expectations from young professionals are evolving continuously. It is no longer sufficient to possess just theoretical knowledge—today's industries seek individuals who are agile, adaptable, and equipped with strong problem-solving, communication, and leadership skills. Recognizing this shift, the Placement and Training Cell at SIT Hyderabad has consistently worked to align our students' capabilities with the needs of the industry through comprehensive training, real-time exposure, and career guidance.

From technical skill development to soft skills enhancement, from aptitude training to mock interviews, and from mentorship to internship support—the Cell leaves no stone unturned in preparing our students for success. The close collaboration with leading industry partners, recruiters, and alumni networks ensures that our students receive the best opportunities and guidance as they step into the professional world.

We are proud to see our students placed in reputed multinational companies, thriving startups, and top-tier research institutions. These achievements are a testament to the dedication of the Placement and Training Cell, the rigorous academic environment we maintain, and the excellence of our student community.

I take this opportunity to sincerely thank our recruiting partners for their continued trust and collaboration. I also congratulate the Placement and Training team for their visionary leadership, and our students for their determination and perseverance.

As we continue our journey toward academic and professional distinction, I am confident that the Placement and Training Cell will remain a cornerstone of student development and institutional success. Together, we will keep striving to empower every SIT student to become a leader, innovator, and changemaker in their chosen field. 2024, SIT Hyderabad aims to deliver world-class technical education and serve as a hub for innovation and research. We currently offer a Bachelor of Technology (B.Tech) program in Computer Science and Engineering, designed to equip students with strong fundamentals, hands-on skills, and a mindset for lifelong learning. Our mission is to nurture human potential and empower students to become socially responsible leaders and innovators. Our strength lies in our exceptional faculty and a diverse student community. Together, they contribute to a rich academic culture where learning goes beyond the classroom. The institute actively promotes research, with faculty and students publishing in reputed journals and participating in leading conferences globally.

To strengthen the education-industry interface, we host regular Industry-Academia Conclaves and emphasise internships and project-based learning. Our Career Development Centre plays a vital role not only in placements but also in preparing students for successful careers through mentorship and skill development. We continue to invest in state-of-the-art infrastructure, with advanced labs and research centres focused on artificial intelligence, data science, high-performance computing, and more. At SIT Hyderabad, we are committed to shaping the next generation of thinkers, doers, and changemakers. We invite you to join us on this journey of innovation, excellence, and impact. Welcome to a journey of excellence, exploration, and endless possibilities.

Mr. Sai Prashanth Mallellu
Head, Training & Placement Cell,
Symbiosis Institute of Technology, Hyderabad

As the Head of the Placement and Training Cell at Symbiosis Institute of Technology, Hyderabad, I take great pride in leading a crucial function that bridges the academic environment with the corporate world. Our objective is not just to facilitate placements but to empower students with the skills, mindset, and confidence required to thrive in today's competitive global marketplace.

At SIT Hyderabad, we believe that every student is capable of achieving excellence when provided with the right guidance and opportunities. The Placement and Training Cell works relentlessly to create these opportunities by building strong relationships with industry leaders, startups, MNCs, and research organizations. Our focus goes beyond job placements—we aim to prepare students for dynamic career paths through structured training programs, soft skills development, technical workshops, aptitude assessments, resume building sessions, mock interviews, and career counseling.

We understand that the recruitment landscape is continuously evolving, and thus, our training initiatives are designed to make students industry-ready, adaptable, and forward-looking. Whether a student aspires to enter the corporate sector, pursue higher education, join a startup, or become an entrepreneur, our programs are tailored to align with their aspirations and ambitions.

We are proud to have achieved consistent placement records across diverse branches, with our students being placed in top-tier companies, receiving internships with reputed organizations, and excelling in competitive examinations. These achievements are a reflection of the relentless efforts of our team, the excellence of our students, and the strong support we receive from our faculty and institutional leadership.

The Symbiosis Placement and Training Cell plays a pivotal role in shaping the future of students by bridging the gap between academic learning and industry expectations. Their consistent efforts in organizing training sessions, mock interviews, and placement drives have empowered students to step confidently into the professional world. Their commitment to development through resume-building workshops, soft skills training, aptitude sessions, technical interviews, technical workshops and regular industry interactions ensures that students are not only technically sound but also professionally prepared. I deeply appreciate the Placement Cell's dedication to student success and career readiness.

Ms. Umarani
Tejomurtula
Developer Productivity
Specialist, Microsoft

At Symbiosis Institute of Technology, Hyderabad, the Training and Placement (T&P) Cell stands as a beacon of transformation, guiding students seamlessly from the academic realm into industry. Grounded in values of excellence, innovation, and holistic development, the Cell's unwavering commitment empowers learners to evolve into future-ready professionals with robust technical prowess, confidence, and skills finely tuned to real-world demands. Its structured approach—spanning internships, certifications, and training activities—makes it not just a support system, but a launchpad for aspirational careers.

Ms. Niharika Vanka
Senior Data Analyst Inn
Collection Group, UK

Placement training is essential for students charting their career paths. It opens doors to explore diverse opportunities, from mastering exams and interviews to securing internships or full-time roles. As someone involved with placement efforts, I've witnessed the impact of dedicated training programs. This process helped me land multiple job offers and build confidence at different stages of my career. I highly recommend students dive into placement training and gain at least a year of work experience—through internships, apprenticeships, or graduate roles—before pursuing further education. It's the perfect foundation for a successful career.

Mr. Raj Paul
Python Developer-
InnoWave, Bengaluru
India

In today's fast-evolving professional landscape, it's not enough to just acquire theoretical knowledge; practical skills and direct industry exposure are paramount. The transition from academic life to a professional career can be daunting, and a well-structured Placement and Training Cell acts as an indispensable bridge. The team at Symbiosis Institute of Technology, Hyderabad, clearly understands this, meticulously preparing students and connecting them with relevant opportunities. Their dedicated efforts in securing valuable placements ensure students are not just degree-holders but future-ready professionals, equipped to make immediate contributions and confidently step into their chosen fields.

Mr. Kamalnath Muthyala
Process Lead - Capgemini

As an alumnus of Symbiosis Institute of Technology, Hyderabad, and now serving as a Process Lead, I carry immense gratitude for the transformative role played by the Placement and Training Cell. Their influence reaches far beyond conventional placement preparation—instilling confidence, professionalism, and a growth-oriented mindset in every student they mentor.

Having personally benefited from and closely observed their dedication, I can attest to the remarkable impact this team has had. Their holistic approach—covering aptitude development, technical skill-building, resume refinement, mock interviews, and soft skills training—ensures students are not just prepared for interviews but empowered to thrive in competitive environments.

What truly sets the Placement and Training Cell apart is their personalized mentorship. Every student is recognized as an individual, with unique strengths and goals, and is guided accordingly. Their consistent encouragement, collaboration with industry leaders, and unwavering commitment have created lasting pathways for countless students.

Today, as a well-wisher and mentor to SIT-Hyderabad, I'm proud to witness our alumni succeeding across industries. Much of that success is rooted in the foundational support provided by this exceptional team.

I extend my heartfelt appreciation to the entire Placement and Training Cell for their tireless efforts in shaping the future of young professionals. May their work continue to grow and inspire generations of students to find their purpose and potential.

Placements are a defining part of a student's academic journey. They mark the transition from being a learner to becoming a professional. Securing a placement not only validates years of hard work but also significantly boosts a student's confidence and self-belief. It opens the door to new experiences, responsibilities, and personal growth.

Mr. Gaurav Pathak
Technical Consulting
Engineer Trainee, Cisco

More than just a job offer, a placement gives students a sense of direction and the motivation to dream bigger. It encourages them to explore career paths they might not have considered before, and inspires others around them to aim high. In many ways, placements are the bridge between aspirations and real-world achievements. Students who are placed do pave the way for the future generations to learn from their own experiences and excel in their career.

At the same time, the role of a proactive and committed Training & Placement Cell is extremely vital in this journey. The Placement and Training Cell at Symbiosis Institute of Technology, Hyderabad, is doing a commendable job by providing students with the right platforms, resources, and guidance to succeed in today's competitive environment. From arranging training sessions and mock interviews to bringing in top-tier recruiters and helping students understand industry expectations, the Cell plays a crucial role in shaping their career readiness. Such initiatives not only improve employability but also instill professionalism and adaptability among students—skills that last a lifetime.

Mr. Sai Kumar M,
Software Engineer,
Boardridge

As a mentor of SIT-Hyderabad, I have seen the Training and Placement Cell serve as a true bridge between academic learning and industry demands. Their focus on nurturing skills, building confidence, and offering tailored support equips students not just for their first job, but for a lifetime of professional success.

Mr. Sai Yashwant Tavva
Angular Developer,
Drucare

The Training and Placement Cell at SIT-Hyderabad is more than a career gateway—it's a catalyst for personal and professional transformation. With their dedication to skill development, mentorship, and industry engagement, they prepare students to thrive in competitive environments while instilling the confidence to lead.

Mr. Vinay S
Software Engineer,
PayPal

The Training and Placement Cell has been instrumental in shaping students' careers by providing exceptional guidance, industry exposure, and skill development opportunities. Their dedication to bridging the gap between academia and industry ensures that students are not only job-ready but future-ready. The commitment and personalized support offered by the team truly make a lasting impact on student success. As a mentor of SIT-Hyderabad, I have witnessed firsthand how the Training and Placement Cell goes far beyond securing placements—it shapes confident, industry-ready professionals. Their unwavering commitment to personalized guidance, skill enhancement, and holistic growth has empowered countless students to excel. I am proud to be associated with a team that plays such a transformative role in shaping careers and futures.

Mr. Sri Charan
President, T&P CELL
SIT Hyderabad

As a student in the first batch at Symbiosis Institute of Technology, Hyderabad, I have had a unique and exciting experience shaping the journey for myself and future students. Serving as the Founding President of the Placement and Training Cell allowed me to create a platform that connects students to real-world opportunities right from the beginning of their academic careers.

Even though we are only in our second year, our team has already started career-focused sessions, skill development workshops, and networking events with industry leaders. We want to help students understand the expectations of the corporate world early on and assist them in building the confidence, communication, and technical skills they need to succeed.

This role has taught me the importance of leadership, responsibility, and vision. It is more than an extracurricular—it is a mission to ensure that every student enters the professional world ready, empowered, and inspired. I am proud to be part of this foundation and look forward to seeing the legacy we are creating.

Ms. V.P Mokshitha
Vice President,
T&P CELL,
SIT Hyderabad

As the Vice President of the Placement Cell at SIT Hyderabad and a member of our very first batch, I feel both proud and responsible. Even though I'm only in my second year, being part of this journey, where we're setting the stage for future placements, has been incredibly eye-opening.

We don't have seniors to guide us or past records to follow, but our team has taken that as a challenge. From building industry connections to understanding how placements really work, we've been learning by doing. It's exciting to know that what we're building now will help every SITian who comes after us.

We may not have reached our own placement season yet, but the energy, commitment, and preparation we're putting in say a lot about what SIT Hyderabad stands for. This isn't just about us, it's about creating something meaningful for the future.

Mr. Sreesainadh
Head, T&P CELL,
SIT Hyderabad

As the Head of Placements, I'm honored to help build something extraordinary from scratch. Without alumni support or past precedents, our first COHORT has embraced a bold vision—to create not just placements, but enriching industry experiences through carefully curated internships and strategic corporate collaborations.

By forging meaningful dialogues with industry leaders and fostering enduring partnerships, we deliver practical opportunities that align with both the academic journey and professional aspirations of our students. Each connection we establish today enriches the experiences of current SITians and paves the way for a stronger legacy ahead.

At SIT Hyderabad, placements begin long before the final year. Our focus on early exposure, skill development, and internships lays the foundation for future success. I'm proud to contribute to this evolving platform—one that empowers students today and inspires tomorrow's engineers.

Ms. Harini
Coordinator,
T&P CELL,
SIT Hyderabad

Stepping into the role of a Placement Student Coordinator at Symbiosis Institute of Technology, Hyderabad, has been a defining part of my journey. As a student from the institute's inaugural batch, I've had the unique opportunity to be part of something that's being built from the ground up—without templates to follow or seniors to guide us.

My role revolves around connecting students with internship opportunities, assisting the Placement Cell in building strong industry partnerships, and ensuring smooth communication throughout the process. I've helped plan and manage internship drives, supported students during interactions with companies, and contributed to creating systems that will benefit future batches.

What sets this experience apart is the sense of purpose it brings—every connection we build and every drive we conduct isn't just for today, it's an investment in the future of SIT Hyderabad. This role has strengthened my organizational and interpersonal skills, while constantly reminding me how powerful student-led initiatives can be when driven with vision and intent.

INDUSTRY LINKED CERTIFICATES

- At SIT Hyderabad, the institution acknowledges the paramount importance of industry-recognized certifications in shaping students' career trajectories.
- As a testament to this commitment, strategic alliances have been formed with prestigious entities like MongoDB, and AWS Academy.
- These affiliations offer comprehensive and industry-focused certification programs, ensuring students gain practical expertise and hands-on experience in leading-edge technologies.
- Infosys Spring Board Certifications
- Google Gen AI Exchange Program
- Microsoft AI Skill Sprint Program-Certification

Driving Innovation:**NPTEL, Oracle, Generative AI, and Google****Google Partnership**

INDUSTRY PROEJCTS, FOREIGN COMMUNICATIONS , SOCIAL INITIATIVES

Hackathons and Codeathons: Regularly organized to promote innovation and problem-solving, these competitive events challenge students to build real-time tech solutions under pressure, enhancing coding, teamwork, and time management skills.

Hands-on Labs: SIT Hyderabad places strong emphasis on practical learning through dedicated lab sessions focused on Java development, API integration, and UX/UI design. These labs allow students to gain in-depth technical expertise and prepare for real-world software development challenges.

Clubs and Technical Associations: Students can join a wide range of clubs that foster creativity, leadership, and collaboration in areas like AI, cybersecurity, entrepreneurship, robotics, design, and more

Participation

Internships & Professional Training

Empowering Real-World Readiness

At Symbiosis Institute of Technology, Hyderabad, internships and certified trainings are not just supplementary—they are integral to shaping industry-ready graduates. This policy has been thoughtfully designed to seamlessly embed placement-oriented trainings and internships into the academic framework. It ensures holistic professional growth by defining structured guidelines and expectations, empowering students with real-world experience alongside academic excellence.

SCOPE

This policy is applicable to all undergraduate students from every department at SIT-H, ensuring equal opportunity and standardization across the institute.

OBJECTIVES

- Motivate students to actively pursue industry internships, research collaborations, and certification-based trainings.
- Align every internship and training experience with the academic curriculum and evolving industry standards.

Establish a transparent framework for attendance regularization and academic integration during training or internship engagements.

Training Activities

- At SIT Hyderabad, we offer various training activities to enhance placement opportunities for our students. The training fundamentals are divided into three important skill sets. The institute has formulated Skill Enhancement Courses like Flexi Credit Courses for students from the first year every semester to enhance their competence skills in all manner.
- The faculty, industry personnel, and training professionals conduct year-round sessions to enhance students' skill sets. Automated software "CODE TANTRA" & "HackerRank" is used to continuously assess their performance in all skill sets.

Technical & Programming Skills

- **Technical Workshops:** We organize technical workshops focused on enhancing students' proficiency in core engineering subjects and emerging technologies. Industry experts conduct these workshops and cover topics relevant to the current job market.
- **Industry Interaction Sessions:** We invite industry professionals to interact with students and share insights into current industry trends, expectations, and recruitment processes. These sessions provide students with valuable guidance and industry exposure.
- **Technical Competition, Peer-to-Peer Learning & Hackathon:** Regular activities are conducted to challenge students' technical abilities across diverse industry scenarios, involving solving real-world industry problem statements to cultivate practical problem-solving skills.
- **Integrated Industry-Oriented Value-Added Courses:** Students are required to participate in value-added courses from their first year, which are seamlessly integrated with the academic curriculum.

Aptitude Skills

- **Aptitude Test Preparation:** We offer training programs to prepare students for aptitude tests commonly used by companies during recruitment. These programs cover topics such as quantitative aptitude, logical reasoning, and verbal ability.

SoftSkills Training

We conduct soft skills training sessions to improve students' communication, interpersonal skills, teamwork, and leadership abilities. These sessions help students develop the professional skills necessary to succeed in interviews and workplace environments.

Mock Interviews: Mock interview sessions are organized to simulate real interview scenarios. Feedback is provided to students to help them understand their strengths and areas for improvement, allowing them to refine their interview skills.

Group Discussion Practice: Group discussion sessions are conducted to help students improve their communication and presentation skills. Students are given topics to discuss, and constructive feedback is provided to help them enhance their performance.

Resume Building Workshops: Workshops on resume building are organized to help students create professional and impactful resumes. Tips and best practices are shared to ensure students' resumes effectively highlight their skills and achievements.

Career Counselling:

Individualized career counselling sessions are conducted to assist students in identifying their career goals and charting out a personalized career path. Guidance is provided on industry trends, job opportunities, and skill development areas.

These training activities are designed to equip students with the knowledge, skills, and confidence needed to excel in placement interviews and secure rewarding career opportunities. At SIT Hyderabad, we are committed to providing holistic placement enhancement support to our students.

Learning Partners

MICROSOFT

Microsoft certification programs in cloud computing, AI, and software development.

GOOGLE

Google certification programs in IT support, data analytics, and project management.

MONGODB

Database certification programs for modern application development.

AWS ACADEMY

Cloud computing certification programs for in-demand AWS skills.

GOOGLE GEN AI

Cutting-edge generative AI certification for next-generation technology professionals.

INFOSYS SPRING

Industry-aligned certification programs in emerging technologies and business skills.

MICROSOFT WORKSHOP

POWER BI AND MICROSOFT FABRIC

The Power BI and Microsoft Fabric workshops offered an insightful experience into modern data analytics and business intelligence tools. Students explored how Power BI transforms raw data into interactive dashboards, making decision-making more efficient and data-driven.

Hands-on sessions were conducted by industry experts, guiding participants through real-time data modeling, visualization techniques, and integration with Microsoft Fabric. The interactive learning environment helped students understand the practical applications of cloud-based data platforms in today's digital world.

The industrial visit further enhanced this experience by allowing students to observe how these tools are used in professional settings. It provided valuable exposure to industry workflows, encouraging students to apply their knowledge in real-world scenarios and inspire future innovations in data science.

FABRIC DAY

As part of our commitment to industry exposure and future readiness, the Placement Cell organized a special visit to Microsoft Hyderabad on the occasion of Global Fabric Day. This unique opportunity allowed students to explore Microsoft's cutting-edge advancements in data analytics and cloud technologies, with a focus on Microsoft Fabric.

The session featured expert talks, live demonstrations, and interactive discussions on how Microsoft Fabric is reshaping data integration and analytics. Students gained valuable insights into the seamless collaboration between Power BI, Data Factory, and Synapse within a unified platform—equipping them with practical knowledge of enterprise-grade solutions.

This visit not only enriched students' technical understanding but also motivated them to explore careers in data and cloud technologies. The Placement Cell remains dedicated to bridging the gap between academics and industry by facilitating such impactful learning experiences.

UPCOMING EVENTS

Let's Think Beyond the Resume:
Crafting Solutions, Not Just Careers

Mr. Ganesh Anabattula

Deputy Manager,
Narwal, Hyderabad

6th August, 2025

02 PM
to
03 PM

The session featured Mr. Ganesh Anabattula, Deputy Manager at Narwal, Hyderabad, who shared real-world insights on how students can move beyond traditional resumes by focusing on problem-solving skills, innovation, and industry readiness. The workshop aimed to bridge the gap between academic learning and real-time application, helping students understand how to position themselves effectively in today's job market.

Ms. Sanjana Muvvala, Associate Software Engineer at OCTanner, conducted an insightful session on "Crafting Your Digital Identity: Build a Portfolio with React" at Symbiosis Institute of Technology, Hyderabad. The workshop focused on helping students understand the importance of having a strong digital presence through a personalized portfolio. She guided participants through the process of designing, structuring, and deploying portfolios using React.js, a powerful frontend framework. The session provided hands-on exposure and highlighted best practices for showcasing technical skills, academic projects, and achievements effectively. It was highly beneficial for students aiming to enhance their visibility and professionalism in the tech industry.

Crafting Your Digital Identity:
Build a Portfolio with React

SANJANA MUVVALA

OCTanner
Associate Software Engineer

11:45 AM
to
01:00 PM

WORKSHOPS

Organised by
Training & Placement Cell, SIT Hyderabad
in association with
IEEE Symbiosis Institute of Technology
Hyderabad Student Branch

Mr. Uthej Kalathila
Digital Specialist Engineer
Infosys

**Workshop on Backend
Development using
SpringBoot**

**8th and 9th
August, 2025**

Mr. Uthej Kalathila, Digital Specialist Engineer at Infosys, who introduced students to essential backend concepts using the SpringBoot framework. Participants gained hands-on experience in creating RESTful APIs, managing databases, and understanding backend architecture. The session was highly interactive and informative, equipping students with practical skills essential for building scalable backend systems in modern web applications.

Mr. M Sai Kumar, Software Engineer at Broadridge, who provided practical insights into developing and deploying RESTful APIs using SpringBoot. Students explored real-world backend concepts including controllers, services, and integrations. The workshop proved to be a valuable learning experience, equipping participants with in-demand industry skills for modern full-stack and backend development using Java and SpringBoot.
